

WHAT HAPPENS TO CHILDREN WHEN ONE PARENT TURNS THEM AGAINST THE OTHER?

Are you worried you may be losing your children?

The **New York Foundling Fontana Center for Child Protection** presents a **FREE** workshop by one of the foremost authorities on Parental Alienation Syndrome (PAS), a potentially devastating phenomenon that you don't want to affect your children.

Participants in this workshop will:

- Learn the 8 signs and symptoms of PAS
- Learn about the strategies that one parent may use to turn children against the other parent - some of the same strategies used by Cult leaders!
- Discover more than 10 triggers that can lead an adult to realize that he or she was a child victim of alienation by a parent
- Understand why it is important for everyone to learn about this pattern so we can prevent its progression and protect the parent-child bond
- Hear an expert dispel myths about PAS — such as it only happens to fathers and it only occurs in divorces

*Please join Dr. Amy J.L. Baker, Director of Research at The New York Foundling Fontana Center for Child Protection, and a developmental psychologist with a Ph.D. from Columbia University, as she speaks on this important topic. Dr. Baker has conducted rigorous parent-child research for nearly 20 years, published numerous journal articles, and helped hundreds. Dr. Baker is the author of a new book, **ADULT CHILDREN OF PARENTAL ALIENATION SYNDROME: Breaking the Ties That Bind** (W.W. Norton & Co., 2007), is featured on TV and Radio, and is dedicated to helping to educate and empower people to address this difficult issue. Dr. Baker recently completed a paper for parents targeted for parental alienation entitled, *Beyond the high road: responding to 17 parental alienation strategies without compromising your morals or harming your child*. She will be selling and signing copies of the paper in addition to her book. For more information, visit Dr. Baker's website at www.amyjl baker.com.*
